

Summer School 2017 Feedback

Hallo Bill.

I hope you are well and enjoyed your second week of summer school.

I just wanted to thank you again for the great week in Ludwigsfelde and also for the photo and the material on your homepage.

Best wishes - also for your team.

A....

Hi Bill,

thanks again for the wonderful days at Ludwigsfelde summer course - they passed by much too quickly again. These days are always a delight and great practice for all of us. Now we have been connected for so many years that we can't imagine summers without you and your team, because all the tutors do such a brilliant job to keep us busy with practising and improving our English.... And also due to repetition in one or the other way there is progress in our abilities. There is so much input that one can't keep everything in mind by doing it only once (should have these courses twice a year!)...Please tell all the tutors as well as Bethany and Patrick that it was great pleasure again.

THANKS-THANKS-THANKS

S...

Dear Bill,

Firstly I'd like to express my gratefulness for your attention and kindness. Your seminars are really helpful. Today I've downloaded some of the free materials from your website. I hope to take part in follow-up courses next year.

Best wishes,

K...

This year's English Summer School proved to be another great opportunity of getting immersed in the English language by listening to it and speaking it all day long.

The workshops offered a fantastic chance to explore topics and to try out things which I had been unfamiliar with before.

I just loved the Drama and the Mindfulness workshop. Thanks to our wonderful tutors I felt at ease and comfortable from the very first minute on and I so much enjoyed trying out something new. Wonderful! :)

"Environment" had not been on my top 5 list - BUT the workshop was so very well prepared, the tasks and activities were so interesting and varied that all the participants - me included, of course - had sooo much fun and really enjoyed discussing this important topic. Brilliant!

Having the chance to chat in English from dawn till dusk till night ;) was simply fantastic and is a main reason - I believe - that the English Summer School has been such a great success for many a year. Fabulous!

Thank you so much for being really dedicated to your work with us English teachers here in Brandenburg. I appreciate that a lot. What a joy and privilege to have the chance to participate in such a unique kind of *Fortbildung* - unique because of its positive and relaxed atmosphere of inspiration, recognition and encouragement, and because of the lasting benefits for our personal development as English teachers we all have gained from it over the years.
